

The EduPASS project

Welcome and Overview

EduPASS International Multiplier Event

Luxembourg, October 11th, 2024

EduPASS

Education for Physical Activity and Sport:
Informal and Non-formal Settings

Welcome and Overview

1. Welcome

Why are you here? → Your relationship to the EduPASS-project

Why this Multiplier Event? → The goals of this event

2. Overview

Who are we? → The partners of the EduPASS-project

What do we want? → The goals of the EduPASS-project

Welcome! Why are you here?

→ Your relationship to the EduPASS project

You are related to/interested in physical activity, movement, play, and sport for children, especially in informal and non-formal settings (e.g., sport clubs, kindergarden) **because it is part of your job!**

→ you work (practically) with children in this field.

Then you might be interested in methodology and curricula!

→ you do research in this field.

Then you might be interested in getting an overview and networking!

→ you are a stakeholder in this field.

Then you might be interested in educational programmes and their implementation.

Welcome! Why this Multiplier Event?

→ The goals of this event

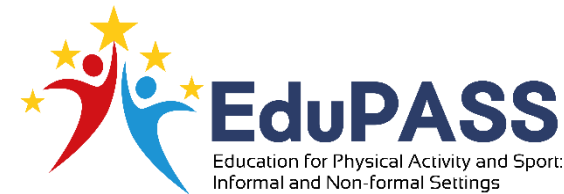

With this Multiplier Event we would like to...

- present the most important outputs of the EduPASS project.
- discuss these outputs and their transfer and implementation, especially the modular training programme for YSC and ECE.
- ask you to act as a multiplier, that is, to make the EduPASS project and its results known in your organization.

EduPASS Internat. ME – Luxembourg, October 11th, 2024
Welcome and Overview

Co-funded by the
Erasmus+ Programme
of the European Union

Overview! What do we want?

→ The goals of the EduPASS project

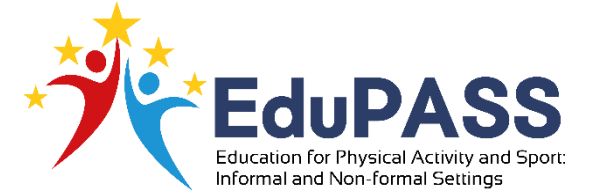

With the EduPASS project we want to develop a modular training programme for (future) Youth Sport Coaches and Early Childhood Educators.

- 6 core modules each (plus an evaluation tool).
- available to everyone at any time on a teaching platform.
- specific learning goals and different didactic approaches (with a special emphasis on interactive learning methods).
- Theory (knowledge) and practice (skills for real life).

Introduction Prof. Dr. Roland Naul

→ Willibald Gebhardt Institute, Germany
